Education

Forman Christian College | BSc (Hons) Economics (Minor in Political Science) | **(CGPA: 3.56/4)** **2023 – 2027**

Relevant Courses – *Intermediate Microeconomics, Intermediate Macroeconomics, Statistics for Economists, Mathematics for Economists, Econometrics, Data Analytics with R, Linear Algebra, Calculus, Data Analysis for Economists, Project Planning and Appraisals, Development and Growth Economics, International Political Economy, Politics of Developing Areas & Governments of Developing Countries.*

Experience & Leadership

Centre for Economic Research in Pakistan (CERP) |Analytics Intern **June 2026 – Sept 2026**

- Supported the mixed-methods evaluation of the GIZ-implemented Adaptive Social Protection (ASP) Programme covering four pilot interventions across four Sindh districts through quantitative, qualitative, and survey research.
- Led pre-fielding QA audits of quantitative baseline instruments in SurveyCTO/XLSForm, identifying skip-logic, coding, section numbering, and geographic-code inconsistencies; reviewed sampling and representativeness.
- Designed a standardized household identification (HID/PID) coding scheme and survey fieldwork SOPs based on PBS/HIES conventions, standardizing household identification, respondent selection, and questionnaire administration.
- Developed Financial Inclusion and Digital Financial Literacy indices, including indicator mapping, weighting, formulas, dummy variables, and SPSS syntax.
- Conducted qualitative analysis & reporting: Coded field interview transcripts using ATLAS.ti, contributed to indicator construction/SWOT frameworks, questionnaire development, methodological research on recall-period design, and authored the Impact evaluation section of the OECD-DAC report.
- Contributed to OECD-DAC-aligned evaluation outputs through indicator mapping, evidence synthesis, and analytical research.

The Young Economist Initiative | *Co-Founder & Researcher* (UK & Pakistan) **July 2025 – Present**

- Co-founded a youth-led economic think tank promoting policy research and economic literacy across the UK and Pakistan. Collaborate with international peers to develop research and initiatives addressing key socio-economic challenges**.**

Department of Political Science FCCU | *Teaching Assistant* **Sept 2025 – June 2026**

- Supported instruction for 4 undergraduate courses: Introduction to Political Science, Modern Political Theory, Public Administration, and Ancient & Early Modern Political Philosophy (Fall 2025-Spring 2026). Led discussions, graded assignments, and mentored students on coursework and research writing.

Daadras | *Research Assistant* **Sept 2025 – Dec 2025**

- Conducted literature reviews of research papers and book chapters, producing concise analytical briefs and synthesizing key arguments, evidence, and findings.
- Contributed to a legal research paper by refining academic language, citations, bibliography, and converting the manuscript to OSCOLA citation and formatting standards.
- Contributed to the development of a research framework for a key organizational project, supporting the structuring and organization of the research.

Research & Projects

Labour Market Outcomes in Pakistan | *Stata Final Project*

Conducted econometric analysis in Stata using Pakistan's Labour Force Survey (2020–21) microdata. Performed data cleaning, variable construction, descriptive statistics, and regression analysis in Stata to examine labour market outcomes across gender, region, and marital status. Applied hypothesis testing (t-tests, chi-square) and interpreted results in an economic and policy context.

MBTI and Behavioral Economics | *Research Paper*

Explored how MBTI personality types influence economic decision-making and career preferences among undergraduates. Collected and analysed data from **60+** students using standardized MBTI tests and custom surveys.

Gender Disparities in Education across Pakistan | *Research Project*

Spearheaded mixed-method field research combining **80+** quantitative survey responses with in-field qualitative interviews of school-aged girls from **Chandrai village** to examine barriers to their education.

Trapped by Honour: Barriers to Girls' Education in Pakistan | *Research Article*

Authored a policy analysis as a YEI researcher, examining how patriarchal norms and honour-based practices restrict girls' education and drive wider socio-economic inequality.

Honors & Awards

- Vice Rectors List | Forman Christian College

Extracurricular Activities

Forman Philosophy Society | Lead Publications & Newsletter Editor
McKinsey & Co | McKinsey Forward Program Scholar
Benade Physics Society | Media Head
The Citizens Foundation | Baghban Ambassador

Skills & Interests

Data Analysis (**Stata, R, Excel**), SurveyCTO, Regression & Basic Econometric Modelling, Quantitative & Qualitative Research (ATLAS.ti), Project Scheduling **(PERT/CPM)**, Tableau, RStudio, Microsoft Office, Canva, Leadership, Team Management, Effective Presentation and Communication.
